

**FAASTeam & EAA Chapter 14 presents:**

# **Bern Heimos - Always on Final**

Each summer since 2004, Bern Heimos has flown his vintage 1939 Piper Cub coast-to-coast across America. Generally each adventure totals about 6,000 miles over a four to six week period. He chooses different routes to learn more about our country and to experience a variety of flying challenges.

The goal of the presentation is to present a different paradigm to pilots considering "low and slow" cross-country flights. Let's face it – if by low and slow we mean flying at the lowest legal altitude above ground, you are always on final approach...

That paradigm shift you experience will take into consideration: The need for flight plan flexibility Weather and the constant need to consider its affect on flying conditions Terrain variables and safe routing techniques Airspace routing management, TFRs, etc. Critical physiological factors that cannot be ignored Piloting and distractions Essential and optional equipment Bern's presentation consists of three parts: PowerPoint slides to cover important regulations and information Video of the beauty our country possess when flying low and slow Question, Answer and Discussion

## Event Details

**Sat, Oct 19, 2013 - 10:00 am**

**EAA Chapter 14, Hangar 1**

1409 Continental St

San Diego, CA 92154

**Contact: Kerry Powell**

**(760) 602-0662**

[kgpowell@roadrunner.com](mailto:kgpowell@roadrunner.com)

Select #: WP0951766

Representative Kerry Powell

**Directions:** I-805 South to 905, take 905 East toward Otay Mesa. Take the Britannia exit, turn left onto Britannia, turn left onto Otay Mesa Rd. Turn right at the stoplight at Cactus Rd into Brown Field entrance, turn right onto Continental Ave. Follow instructions at security gate to call EAA for entrance. Chapter 14 is next to Brown Field control tower.

**A message from the National FAASafety Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
